

All Ways Well, LLC Coded Fee Schedule

Note that all plans requiring authorization for treatment now include an additional return patient visit code (99211 or 99212 depending on the length of the authorization form and work required) per each referral renewal cycle. I.e. if your referral authorization is every 4 treatments, on treatment 4, 8, 12 etc when renewal is required to procure a new referral to continue treatment, a return patient visit code will be billed. Also note that patients who pay out of pocket at time of service can incur lower fees for less complex wellness visits.
